Subject: Requested info during RLS conference call yesterday...Dimock

1. R5 mailing address for samples:

Chicago Regional Laboratory
USEPA Region 5
10th Floor
536 S. Clark St.
Chicago, IL 60605

2. We have the capability to do low level PAHs, but not via SIM. I am attaching the page from our SOP with the reporting limits. We can do SIM, but don't know at this point what RL improvement we may achieve with it.

3. We can do SEDD as an EDD from Promium. Versions: 2A rev 5.0, 2B rev 5.0 and 2A/2B rev 5.2. We can also do a variety of standard and simple EDDs including Excel.

4. Dennis is conferring with Larry and David to find out the status of their efforts on the alcohol LC/MS/MS method. This will be sent separately. They have had some success with the alcohols they will provide details.
